RAUTITAN Water, Gas and Heating

PRODUCT BOOK NEW ZEALAND

REHAU

RAUTITAN - The new generation

Reliable. Versatile. Secure.

The RAUTITAN system has been developed in collaboration with our industry partners across the globe; installers, designers, builders and developers. A complete and comprehensive building technology solution for water, fire sprinkler, gas and hydronic heating services complemented by the RAUTOOL range; the RAUTITAN system is reliable, versatile and secure.

25 year warranty*

Quality

Developed in collaboration with designers, installers, builders and developers across the globe RAUTITAN represents the result of over 60 years experience in polymer processing and industrial manufacturing.

Produced in state-of-the-art manufacturing facilities with advanced quality management processes ensures that all system components combine seamlessly, delivering a reliable and robust system. RAUTITAN PXsr polymer fittings are produced using state-of-the-art robotics technology to guarantee optimum quality. All RAUTITAN fittings are 100% manufacturer pressure tested for unrivaled reliability.

As a global supplier of materials for a diverse range of industries REHAU understands what is required to get the job done.

Service

For more than 40 years REHAU has been supporting and servicing the Australia and New Zealand plumbing industry. Dedicated to ensuring our customers enjoy the best quality and service we are committed to having a qualified and local contact. With a team of qualified technical sales managers located across the region supported by our central design and engineering team in Sydney and local customer service.

The quality of any plumbing system is only as good as its design, installation and operation. REHAU training academies support precise and efficient use of the system.

Innovation

As a partner of the global construction industry for nearly 50 years, REHAU is dedicated to meeting industry challenges such as sustainability, efficiency and reliability. With significant investment in R&D, REHAU has delivered countless patents and innovations such as the RAUTITAN PXsr polymer fitting. The RAUTITAN PXsr range not only provides for an easier installation with the easy-slide reversible sleeve, but also provides improvements with regard to hygiene.
We continue to invest and develop new materials, designs and technology to meet the future requirements of our industry.

One tool, all applications

RAUTITAN water and gas services
16 - 63mm

RAUTITAN WATER AND GAS SERVICES
16 - 63mm

RAUTITAN water service system was developed in collaboration with industry professionals in order to meet the needs of builders and the plumbing trade. Its quick and easy installation process has proven to be equally reliable. More importantly, savings can be made on time, labour and material costs.

The strength and flexibility of cross-linked high-density polyethylene (PE-Xa) pipes and PE-X/AL/PE composite pipes used together with a complete range of RAUTITAN Lead Free brass and RAUTITAN PX (polymer PPSU) fittings makes RAUTITAN a superior system that can be used in both residential and commercial applications.

Advantages

- Hot and cold water applications (PN20)
- Simple and fast installation
- Permanent leak-proof joint
- Inhibit corrosion and incrustation
- Colour differentiation between hot and cold water lines, recycled and rain water
- Suitable for concealed installation
- Joint integrity verified by visual inspection
- Reduces water hammer
- Maintenance free
- One sleeve - all applications

RAUTITAN is a comprehensive system for internal hot & cold water services, gas services and hydronic heating systems, including PE-Xa pipe, multi-layer (PEX-Al-PE) pipe, compression sleeve fitting system and a range of professional installation tools. The No.1 in New Zealand.

One Sleeve.
Easy-slide reversible sleeve for safe connections without leakage.

One Fitting – for easy, fast and secure connections.
If you use different pipe systems for water and gas installations, we recommend our RAUTITAN system. Now you can use one fitting and sleeve for both applications. Most convenient for your daily work.

RAUTITAN PX
Combining more than 60 years of world class expertise in polymer engineering and over 50 years of plumbing installations across the globe, REHAU is proud of the RAUTITAN next generation piping system - RAUTITAN PX: a revolutionary polymer fitting system.

RAUTITAN fittings are protected by Australian Design Registration No. 327395, 327396, 327397.

The RAUTITAN Water Services system is Easier, Faster and More Secure.

EASIER
REHAU's simple and secure compression sleeve joint is now even simpler. Forget about checking the sleeve end before making the joint and get the job done even quicker with the assurance that it is 100% secure.

FASTER
The RAUTITAN PX easy-slide reversible compression joint can be completed up to 20% faster and requires 30% less effort to make a joint.
By reducing the compression force, we've extended the RAUTOOL battery life by up to 45%.

MORE SECURE
The advanced polymer materials of RAUTITAN PX have been engineered to the highest REHAU quality standards.
Tough and durable, these fittings offer 100% corrosion protection and peace of mind against scrap-value theft.
