LEAD-FREE RAUTITAN

Plumbing system for safer drinking water

Water is the most precious element to human life; an essential nutrient for our health and well-being. Everybody has the right to clean water and this is what drives REHAU's commitment to always create the most innovative plumbing systems that deliver the safest and healthiest drinking water to the community.

In collaboration with the plumbing industry professionals, REHAU has developed a range of plumbing fittings that helps deliver lead-free water, known as Lead-Free RAUTITAN. It is an extensively tested and proven technology currently used in Germany, far exceeding the most stringent water safety and hygiene standards.

The Lead-Free RAUTITAN range consists of:

RAUTITAN PE-Xa PN20 pipe – (zero Lead)

RAUTITAN Gunmetal fittings – (<0.1% Lead)

RAUTITAN PVDF PX^{sr} fittings – (zero Lead)

RAUTITAN PVDF PX sleeve – (zero Lead)

Clean water matters. REHAU cares.
